SUMMARY

Computer Science student specializing in Cyber Security and Networking with hands-on experience in full-Stack web development using React, Node.js, TypeScript, and MongoDB. Experienced in building modern SaaS-style applications, APIs, and responsive interfaces, with interest in scalable systems, web technologies, and cybersecurity.

EDUCATION

ITM SLS Baroda University CGPA	7.08/10
Bachelor of Technology – CSE (Cyber Security & Networking)	2024 – 2028
Shree Swami Vivekanand Vidhyalaya (12th)	52%

PROJECTS

SaaS Productivity Application – Full Stack | [link](#)

- Developing a SaaS productivity tool using **React.js, Node.js, TypeScript, and MongoDB**.
- Implementing **GraphQL APIs, serverless functions, and PWA features** including offline support.
- Building installable web application with modern dashboard interface.

Portfolio Website | [link](#)

- Developed a personal portfolio website to showcase projects and technical skills.
- Built using **React.js and modern frontend technologies** with responsive design.

EOD Formatter | [link](#)

- Developed an API-based tool to automatically format **End-of-Day reports**.
- Used **JavaScript and Node.js** to integrate APIs and process report data.

React Social Media Dashboard | [link](#)

- build a react dashboard using hooks and react router.
 - Implemented modular components and responsive interface for analytics display.
-

TECHNICAL SKILLS

Programming Language:

C, Python, JavaScript, TypeScript, HTML5, CSS3

Frontend Technologies:

React.js, Progressive Web Apps (PWA), Responsive UI

Backend Technologies:

Node.js, Express.js, GraphQL APIs, Serverless Functions

Databases:

MongoDB

Tools & Platforms:

Git, GitHub, Docker, Vercel

Mobile Development:

React native (working on a project)

Flutter (*Basic to Intermediate level applications*)
